

HB-02

HB-02 anti-burglary safes are strong safes with thicker steel plate and insulated wall to give more safety and trust against burglaries and fires.

Body: Door measures an overall thickness of 50mm and the body measures an overall thickness of 75mm.

Boltwork: The door is secured by a series of 32mm in diameter steel moving bolts at the front end and fixed bolts at the rear edge secured into the frame.

Locking: The locking mechanism is controlled by 3-wheel combination lock with key. The numbers are changeable at will by the user. The safe is fitted with independent glass re-locking device as an additional protection.

External Dimensions (mm)			Internal Dimensions (mm)			Weight (kg)	Accessory
Height	Width	Depth	Height	Width	Depth		
695	515	510	525	335	325	150	1 shelf

- For depth, add 45mm to include lock or handle
